VENUE: SANDRALIA HOTEL
NO. OF ATTENDEES: 74

GLOBAL NETWORK OF
YOUNG PEOPLE
LIVING WITH HIV

CS4ME
CIVIL SOCIETY FOR MALAWA EMPOWERMENT

INTRODUCTION

By African Network of Adolescents and
Young Persons Development - ANAYD

The Gender Equality fund (GEF) was initiated to tackle the essential role of gender equality in eradicating Acquired Immune Deficiency Syndrome (AIDS), Tuberculosis (TB) and malaria, amidst global challenges to gender equality and human rights. Working closely with communities, the fund advocates for gender-transformative health strategies. Shaped by community feedback, including a Steering Committee with community members, the fund received an investment for over three years from ViiV Healthcare and GSK, with plans to engage additional partners and donors. Prioritizing women, girls, trans, and gender-diverse communities, the fund's core principles encompass feminist values, gender equality, diversity, community leadership, safety, sustainability, and institutional development.

Objectives:

- To provide information on GEF's 3 years funded project.
- To solicit national stakeholder's commitment and support for a successful implementation of GEF.
- To foster synergy and partnership with national stakeholders.

Opening Prayer and Introductions

The National Anthem was sung by all the participants as the opening prayer and introductions were done by all attendees.

Opening remark by Executive Director ANAYD: Mr. Aaron Sunday:

Mr. Aaron expressed his gratitude to all participants who took out time to be here. He said it is indeed a privilege to be here. He showed his appreciation to the partners for making this to become a reality and emphasized the importance of ensuring the voices of our adolescent and young girls are heard in decision and policy level. He went further to share his joy and satisfaction to NACA for their support thus far. Mr. Aaron believes that whether it is TB, Malaria or HIV, adolescents should be involved in this integrated approach to put an end to gender inequality.

Mr. Aaron Sunday
Executive Director

Goodwill message from UNAIDS by Dr. Oluwafisayo; She conveyed Dr. Leo Z, UNAIDS Nigeria country Director's greetings. She expressed appreciation her to all attendees for being here because it is indeed our duty to contribute to our country. She highlighted that putting an end to gender-based violence is very key because without this, we cannot empower women and girls to ensure all enjoy healthy lives. This is why it is good that key stakeholders are lending their voices to speak against the issues surrounding this. She urged that as a country, we need to do better to close the gap and address these inequalities. She affirmed that she is positive that the GEF will contribute its own quota towards this. She also reminded us that we cannot achieve the SDG goal on gender equality unless we intensify our efforts towards the issues related to gender and that we also need to have measures that addresses this. Dr. Fisayo assured us of UNAIDS commitment to ensure everyone enjoys free rights. She ended by saying we have to close the gaps concerning gender inequality and health to create a gender equal country where everyone's rights are fulfilled.

Goodwill message from PEPFAR by Mrs. Adewunmi Bukola; she stated how great an opportunity this meeting is as it allows for collaboration between various organizations to break gender norms and barriers to enable young people to have access to health in Nigeria. She believes that at the end of the day, we will have tangible action plans that will take us forward. Before she ended, she affirmed PEPFAR's commitment to this course and sees this meeting as an opportunity where no one is left behind.

Goodwill message from ASWHAN by Mrs. Esther Hindi, National Coordinator; she started by giving a thumbs up to the Director General of NACA for her good work and for putting this together. She mentioned that ASWHAN will always be committed to protecting the rights of women living with HIV and reminded us that we have to put gender in all we do, no one should be marginalized; equality should be given to everyone in terms of health, education and leadership. She cited how women are always left behind, especially in the northern part of the country and went further to say that this is the time to change the narrative and the time for advocacy for these girls and create awareness and an enabling environment for them. She hopes that through this, information can be passed across to women, especially in the rural areas of Nigeria.

Goodwill message from IHVN by Ayeni Christabel; she reiterated what Mrs. Adewunmi from PEPFAR said earlier and assured us that together, we can break gender norms and ensure lives can be better for young people in Nigeria.

Goodwill message from SFH by Michael Titus; brings greetings from the MD and stated that he's grateful for the partnership with NACA and other organizations. He showed his enthusiasm in partnering with GEF and believes it will help more Nigerians move forward across HIV, TB and malaria issues in the country.

Goodwill message from NTBLCP; Dr. .Emperor Ubochioma thanked us for the opportunity to be here and stated that TB has affected gender rights, this is why she is grateful to be here and assured us of full participation until we get it done.

Goodwill message from NEPWHAN by Dr.Ofem Obeten, representing the National coordinator. He appreciated us for the invite and congratulated ANAYD &NACA for this intervention because this is a different turn from what NACA has been focusing on which is the behavioral and structural aspects. He reaffirmed NEPWHAN's support and commitment.

Goodwill message from TB Network by Mrs. Olaide Akani; she recognized and commended all partners for bringing this fund to Nigeria. She is hopeful that as we implement this grant, the barrier that hinders girls from accessing TB, Malaria and AIDS services can be closed

Goodwill message from the Honorable Minister of Youth represented by Miss Habiba Waziri; assured us that the ministry is passionate about supporting women and girls.

KEY NOTE ADDRESS

5

Director General(DG) NACA, Dr. Temitope Ilori

The DG started her address by communicating her happiness in seeing young people break barriers and extended her appreciation to all the partners and funders involved. In addition to this, she stated that she is inspired by great things that is being done by the youth, especially the girl child. She believes the GEF will play a huge role in closing the gap and continued by saying that established women and young girls are a crucial group and targeting this group will help reduce public health issues. This is because the GEF will help to bridge the gap of mother-child transmission. The DG guaranteed NACA's full support of this and affirmed that the funds will be appropriately used so that HIV will not be a public health issue by 2030. With this, she declared the meeting open.

OVERVIEW OF THE GEF BY Y+ GLOBAL BY EXECUTIVE DIRECTOR Y+ GLOBAL, MAXIMINA JOKONYA

The HER voice fund was brought about due to the fact the voices of these young people were not being heard. It is focused on African countries and concluded that they need the youths to lead at the fore front. Each year, 50,000 adolescent girls are being reached in 13 African countries. However, as good an initiative as Your voice fund, it had a challenge which was that it only focused on HIV. This gap in the fund was what led to the birth of the Gender Equity Fund (GEF). This fund was created because the importance of gender equity in reducing ATM (AIDS, Tuberculosis & Malaria)

COMMENTS AND SUGGESTIONS

1. The need to map out stakeholders before commencement of project implementation.
2. The need to collaborate with faith based organizations.
3. The need to work with ministry of education and ministry of women affairs.
4. All malaria partners should be part of the malaria vaccine distribution process and ensure this vaccines gets to the beneficiaries.

PRESENTATIONS

PRESENTATION BY GEF SOUTHWEST CONSORTIUM

Key comments and suggestions

- NPHCDA suggested that for media awareness, they leave with the state level to support in their media campaign because it requires a lot of funding. In addition to this, he added that having baseline and indicators highlighted is really key because we need to be clear as not to reinvent previous cases.
- Instead of doing another policy review, it would be preferable to check previous reviews and find out if there is one relating to their case and advocate for it.
- The need to collaborate with body responsible for policy review.
- The need to for a baseline to be conducted within the state of implementation to eradicate reinvention of wheel.
- Integration of TB training into the ATM to avoid ostracization by health workers.

PRESENTATION BY LAWYERS ALERT

Key comments and suggestions

- A participant commended Lawyers Alert for their integration plan of ATM, rather than segmenting them.
- Another participant asked for the indicators to measure their objectives
- A participant asked for the rationale behind choosing their project states- Akwa Ibom and Benue state.
- Mapping out stakeholders would be helpful during implementation.

PLENARY SESSION

7

PLENARY SESSION ON "MULTISECTORAL APPROACH ON THE ADVANCEMENT AND SUSTAINABILITY OF THE GEF BEYOND GLOBAL FUND RESOURCES"

Moderator:

Ms. Agnes Dogara

Panelists:

Dr. Emperor Ubochioma NTBLCP

Ms. Blessing Igwe EVA

Mr. Ozo Osahon Michael KP Network,

Dr. Oluwafisayo Aransiola Fakayode UNAIDS

Dr. Ofem Obeten NEPWHAN

The representative from EVA, Blessing Igwe elaborated how fragmentation of efforts by different organizations at different levels created a gap, so how are we to maximize impact? We need to do an assessment of what problems exist. Also, social norms allow deep rooted issues to continue to exist. This was in response to the question; "What are the key challenges that a multisectoral can face?"

The NTBLCP representative, Dr. Emperor said that for government to address these issues, we have to be sure the government is even aware of them. Our reorientation will enable government to help. We also should engage the government at whatever level we are in and in whatever we are doing to gain their full support in our programs. He also highlighted the need for engagement of other stakeholders and actors.

UNAIDS representative, Dr. Oluwafisayo spoke on how the networks we have can contribute to the GEF, she suggested Information and Interrelationship with Government and Increase in integrated process of implementation of interventions.

KP network representative spoke on how networks can contribute to sustainability of the programs through amplifying advocacy and informing policies and programming for KP. Through strengthening of community engagement and capacity building of KP led organizations, resource mobilization, foster collaboration and data collection.

QUESTIONS AND COMMENTS

- How do we integrate and sustain all efforts of the CSOs?
Through building capacity at the lowest level as this is what sustains interventions at lower levels.
- How do we bridge the gap and identify CSOs working at each level?
Through mapping CSOs working in the same locality

AYP PROGRAM IN NIGERIA BY NACA, MRS. OBI FAVOR

The goal of the AYP program is to reduce new HIV infections among adolescents and young people in Nigeria through effective program coordination and also ensure that AYP living with HIV are on treatment.

The National Strategic Framework (NSF) prioritized strategic actions to address the HIV response needs of Adolescents and Young People (AYP), especially Adolescent Girls and Young Women.

AGYW have a higher level of vulnerability to HIV infection due to a combination of biological, behavioral, socioeconomic, cultural and structural risks factors

The major contributors of this vulnerabilities are

- Gender inequalities, and inequitable social norms, socio-economic inequalities, harmful practices,
- Increasing level of sexual and gender-based violence,
- Risky sexual behavior
- Low level of HIV knowledge
- Poor national coverage of the nationally approved Family Life and HIV Education (FLHE).

The Nigeria Approach- Guiding Principles includes:

- Multi-sectoral collaboration: All relevant AYP stakeholders from all sectors should collaborate on the design, planning, implementation, and evaluation of AYP programs
- Integrated service delivery: AYP services should be integrated and linked to SRH, maternal, newborn and child health, OVC, and TB services
- Gender-responsive programming: Based on gender analysis, AYP programs should take into account gender equality concerns and address the needs of males and females in their design, implementation, and evaluation.
- Meaningful involvement of AYP and youth responsive programming.

BRAINSTORMING SESSION

How do we ensure our institutions works and for us and accountability mechanisms to be put in place?

- Integration of services/decision and prioritize decision.
- Connect to network
- Speak with one voice and speak with one voice
- Leverage on existing platforms and strengthen collaboration and also build on existing interventions.
- Routine reporting to government.
- There should be national Gender Based Violence (GBV) Indicators so as not to duplicate efforts.
- Need for sustainability and consortium to include AYP.
- All regions should be carried along during project implementation.

OUTCOME

- All attendees present have a clear understanding of the GEF goals, missions and expected outcomes.
- Key stakeholders present assured us of their full support for the successful implementation of the GEF.

NEXT STEPS

- The need to consciously document process and efforts.
- Collaborate with Government agencies and state governments for project implementation.
- Harmonization of efforts among CSOs and familiarization with GBV actors to access terms and materials for HIV, TB and Malaria.
- All Young people living with HIV should be carried along during program implementation.

RECOMMENDATIONS

- Extension of program implementation to the Nigerian correctional centers and facilities.
- Engagement of private sector.
- In the selection of states for the project implementation, ensure no region is left behind.

List of Key Stakeholders Present

National Agency for the Control of AIDS (NACA)
 National AIDS and STI Control Program (NASCP)
 National Tuberculosis and Leprosy Control Programme (NTBLCP)
 Federal Ministry of Health
 Federal Ministry of Youth
 Primary Health Care Development Agency (PHCDA)
