## Who we are

---

African Network of Adolescents and Young People's Development (ANAYD) is a regional organization working for and with Adolescents and Young Persons in their diversities (which include adolescents' girls and young women, young people living with HIV, young key populations and young people with special needs) both infected or affected by HIV, Tuberculosis and Malaria. It has served adolescents and young people in the region since 2017.

## Our vision

---

To see an Africa where the rights, welfare and interests of adolescents and young people in their diversities are assured, promoted and protected, and the larger society is protected from the spread of public health-related diseases.

## Our mission

---

To lead the effort of mitigating the physical, psychosocial and economic impact of HIV, Tuberculosis, Malaria and other health related infections among adolescents and young people in their diversities through information sharing, education, advocacy, capacity building and economic empowerment.

## Our objectives

---

- To promote fundamental human rights and gender equality of adolescent and young Persons in their diversities especially among those infected or affected by HIV, Tuberculosis and Gender base violence in Africa.
- To promote comprehensive sexual reproductive health and right information and services for adolescent and young Persons in their diversities.
- To facilitate access to free and comprehensive prevention, treatment, care and support information for adolescent and young Persons in their diversities.
- To provide and sustain a platform for adolescents and young people in their diversities to come together, exchange ideas through the instrument of peer support groups and forums.

- To facilitate meaningful involvement of adolescent and young people in their diversities in program design, development, implementations, monitoring and evaluation at all levels.
- To facilitate access to social economic support for adolescents and young people in their diversities in the country and Africa.
- To foster synergize and build positive partner relation and collaboration with other national, regional and global stakeholders, NGOs, CSOs and networks for effective programming and resource mobilization for adolescents and young people in their diversities.

### Our core values

- 
- Commitment
  - Hardworking
  - Team Spirit
  - Professionalism
  - Accountability
  - Honesty
  - Transparency
  - Trustworthiness
  - Loyalty

### Thematic areas

---

- HUMAN RIGHTS
- GOVERNANCE AND POLICY.
- HEALTH (HIV, TB, Hepatitis and Malaria)
- SOCIO-ECONOMIC EMPOWEREMENT
- EDUCATION
- ENTERTAINMENT
- GENDER
- INFORMATION AND COMMUNICATION TECHNOLOGY(ICT)

## Core strategies

---

1. Demand creation
2. Peer education
3. Platform settings (Peer support group and forums)
4. Community dialogue
5. Advocacy
6. Capacity building
7. Data hub
8. Research
9. Consultancy
10. Volunteerism
11. Mentorship
12. Social Media
13. Partnership

## Our geographical coverage and network membership

---

ANAYD is a non-discriminatory organization with over 87 NGOs, CSOs, Networks and CBOs registered with her in Kaduna state alone. Over 90 NGOs, CSOs, CBOs, and networks are registered across 37 states of Nigeria; and 7 west and central African NGOs, and Networks registered.

Our team of staff and volunteers across Africa, is made up of young professionals - medical personnel, advocates, activists, media experts, academia, researchers, social entrepreneurs and community members (KPs and LGBTQ) who are committed to the goals and objectives of the organization.

YPWID	Young Persons Injecting Drugs

## Welcome

### From the Executive Director

2021 has been a year of a lot of uncertainties for us at the African Network of Adolescents and Young Persons Development (ANAYD). In this year, the COVID-19 pandemic is gradually getting mitigated through global and national efforts.

ANAYD demonstrated resilience in the delivery of relevant services for Adolescents and Young Persons (AYPs) in their diversities, this is seen in the diverse projects initiated and implemented. These interventions which responded to emerging issues in light of the pandemic, spanned across COVID-19, gender-based violence, sexual reproductive health, and social protection projects. ANAYD alleviated the challenges faced by AYPs in their diversities through the provision of support for AYPLHIV to access treatment at health facilities, cash for business, SRH products, school fees and COVid-19 PPEs.

The COVID-19 pandemic has shown that we can be innovative in the face of crises, while ensuring consistent provision of quality services for AYPs. It also amplified the impact of government policies and protocols in the achievement of organizational goals. We are hopeful that as government continues to make efforts to mitigate the spread and impact of COVID-19, we will consolidate our efforts to support the process.

Our sincere gratitude goes to our partners who worked with us through the year - UNAIDS, UNFPA, Civil Society Institute for HIV and Health in West and Central Africa, Y+ Global, JHPIEGO, Education as a Vaccine, National AIDS Control Agency (NACA), Federal Ministry of Health, Federal Ministry of Youth, Federal Ministry of Sports, Federal Ministry of Education, Federal Ministry of Justice, Federal Ministry of Health-National AIDS and STI Program Control Unit (FMOH-NASCP), and Civil Society partners - Aid Foundation, No Hate Network Nigeria (NO8), The Network of People Living with HIV and AIDS in Nigeria (NEPWHAN), Association of Positive Youths Living with HIV in Nigeria (APYIN), Deborah Women and Youth Initiative (DWYI), Eagle Lead Development Initiative (ELDI), Gail Foundation, Bako Youth Development Foundation (BYDEF), Voice of the Girl Child and Vulnerable People Foundation (VGCVPF), Hope For Communities And Children Initiative (H4CC), Women And Children's Rights And Empowerment Foundation (WCREF), Global Initiative For Women and Children (GIWAC), Arewa Girl Child Initiative (AGCI), Nigeria Key Population Network Secretariat, Disability Rights Advocacy Centre (DRAC), Equal Health Rights Access Advocacy Initiative (EHAII), and Nigeria Youth Network on HIV/AIDS (NYNETHA).

Partnerships have provided good leverage for the success we recorded in this year. In 2022, we look forward to building more collaborations and expanding our efforts as we strive to build an Africa where the rights, welfare and interests of Adolescents and Young People is protected and assured.

## SOCIAL FUND 1.0 PROJECT

Adolescents and Young People Living with HIV (AYPLHIV) (10 -24 years) are not the faces of this pandemic, however, they risk being among its greatest casualties. While they have fortunately been saved from many of the immediate impacts of COVID-19, the emergency still profoundly affects their mental and physical wellbeing. It is generally recorded that Adolescents and young people (AYP) especially AYPLHIV face extreme effects during crises. The COVID19 pandemic maintains these outcomes considerably more, as the general well-being measures for the control of the infection place AYPLHIV at expanded dangers of an interrupted supply of lifesaving antiretroviral medications, especially pregnant young girls living with HIV, who may also be less likely to visit the clinic. These difficulties were more pronounced for AYPLHIV who were at a crossing point of sexual orientation, disability, and in networks confronting extra difficulties.

ANAYD received the UNAIDS Social Aid Fund from the Global Network of Young People Living with HIV (Y+), to provide support to Adolescents and Young People (AYPs) in their diversities impacted by the COVID-19 pandemic across in 11 states across the 6 geopolitical zones in Nigeria.

### Purpose of the support

- To identify the impact of COVID-19 on AYPs
- To provide tangible support to AYPs as a way of cushioning the impact of the COVID-19 pandemic
- To conduct advocacy to relevant institutions based on key findings and recommendations

### Process of delivery

- A. **Call for application** to identify the impact of the COVID-19 pandemic on AYPs, the priority needs and area of support.
- B. **Situation analysis** of impact. This included Focused-Group Discussions and Key Informant Interview (KII) with AYPs and relevant stakeholders.
- C. **Implementation** - Provision of social aid (based on identified needs and the most vulnerable) to 91 AYPs in 11 states across the 6 geopolitical zones of Nigeria.
- D. **Post implementation analysis** to measure the impact of the support and areas of improvement.
- E. **Advocacy** to relevant agencies to share findings and recommendations to improve service delivery for Adolescents and Young Persons in Nigeria

The Situation analysis, which was conducted from December 2020 to January 2021, gathered responses from AYPLHIV including the Young Key population living with HIV in 6 states covering the 6 geo-political zones of Nigeria - Kaduna, Benue, Lagos, Rivers, Anambra, and Taraba states. The states were selected based on the COVID-19 cases, HIV prevalence amongst AYPs, availability of HIV youth networks, and Key population-led

organizations. The Situation analysis was intended to measure the impact of COVID-19 on AYPLHIV in Nigeria and to provide key recommendations to influence policy and programmatic actions to Government and relevant stakeholders.

Interestingly, the situation analysis showed that the principal challenge of AYPLHIV since the lockdown is access to life-saving antiretroviral medications. Next on the priority of the AYPLHIV was the fear of visiting Health facilities which has ultimately disrupted young positive clients from adhering to ARVs, interruption of support group activities, and returning to school. Additional challenges are the availability of food, cost of transportation to visit facilities, and more.

The project reached 91 AYPLHIV and young key populations in 11 states. Beneficiaries received social aid support in form of:

- Food items
- COVID-19 PPE
- SRHR commodities
- Moderate cash support for business
- Transport to health facility for ART drugs collection, viral load and CD4
- School fees

Age	Male	Female
10-17	9	1
18-24	31	25
25-30	7	21

*“I deeply appreciate this support, to our community, it even came when schools reopened. Going for exams with a full stomach is a thing of joy. Thank you so much.” - 25 years Young FSW (Benue state, Nigeria)*

Beneficiary in Anambra state receiving SRHR commodities

Beneficiary in Kaduna state receiving food items

Beneficiary in Edo state receiving COVID-19 PPE

Beneficiary in Kaduna state receiving moderate cash support for business

## CIVIL SOCIETY COMMUNITY ENGAGEMENT ON COVID-19 AND SEXUAL GENDER-BASED VIOLENCE (SGBV)

The COVID-19 pandemic amplified deeply entrenched gender inequalities that put women and girls at higher risk of the pandemic's social and economic impact.

The **economic impact** of COVID-19 is increased stress and tension in households and led to an increase in the frequency and severity of intimate partner and domestic violence, which disproportionately affected women and girls.

**Loss of income** among households posed an alarming financial challenge and potentially affected the current and future livelihoods of vulnerable households, especially female-headed households, as well as persons with disability. This disruption pushed the affected population, especially women, back into extreme poverty.

In response to these, EVA (with funding from UNFPA) supported ANAYD to implement sensitization and capacity building activities in 10 communities in Chikun and Kaduna North LGA of Kaduna state. The intervention bridged the COVID-19 knowledge gap among community members in Kaduna North and Chikun LGAs of Kaduna state; and increased awareness on Sexual Gender-based Violence (SGBV). These efforts reduced the burdens of COVID-19 and SGBV on the state, and Nigeria as a country.

### Objectives

- To reach community members with awareness and risk mitigation of COVID-19
- To reach community members with knowledge and information on SGBV
- To increase young people's access to SRH information

### Process

The quarter's objectives were achieved through the implementation of the activities below

S/N	Activity
1	Virtual Review meeting with CSOs
2	One Day Meeting with CSOs
3	Community Sensitization
4	Review meeting with community Stakeholders
5	Sensitization of Adolescents
6	Community engagement with Youths
7	Capacity building meeting with GBV Responders
9	Community Engagements by Community Leaders
10	Feedback meeting with Ministry of Health (MOH), Ministry of Human Services and Social Development (MOHSSD)

The project was implemented in collaboration with 10 Civil Society Organizations (CSOs), Local Action Committee on AIDS (LACA) from Kaduna North and Chikun LGAs, and representatives of Kaduna State Agency for the Control of AIDS (KADSACA).

S/N	CSOs
1	DEBORAH WOMEN AND YOUTH INITIATIVE (DWYI)
2	EAGLE LEAD DEVELOPMENT INITIATIVE (ELDI)
3	GAIL FOUNDATION
4	BAKO YOUTH DEVELOPMENT FOUNDATION (BYDEF)
5	ASSOCIATION OF POSITIVE YOUTH LIVING WITH HIV IN NIGERIA (KAD-APYIN)
6	VOICE OF THE GIRL CHILD AND VULNERABLE PEOPLE FOUNDATION (VGCVPF)
7	HOPE FOR COMMUNITIES AND CHILDREN INITIATIVE (H4CC)
8	WOMEN AND CHILDREN'S RIGHTS AND EMPOWERMENT FOUNDATION (WCREF)
9	GLOBAL INITIATIVE FOR WOMEN & CHILDREN (GIWAC)
10	AREWA GIRL CHILD INITIATIVE (AGCI)

Project was implemented in 10 communities, 5 each in Kaduna North and Chikun LGAs respectively. These communities were selected based on:

- Population
- Susceptibility to COVID-19 infection
- Closeness to the metropolis
- Track record of SGBV cases

S/N	CHIKUN LGA COMMUNITIES
1.	DANHONO
2.	UNGWAN YELWA
3.	KUDENDAN
4.	KUJAMA
5.	MARABAN RIDO

### KADUNA NORTH LGA COMMUNITIES

1.	ABAKWA
2.	UNGWAN SHANU
3.	UNGWAN DOSA
4.	KABALA DOKI
5.	WARRI STREET

The project reached a total of **1398 persons** with COVID-19 and SRHR information, COVID-19 commodities and dignity kits. 10 Youth Champion cohorts were formed across the project locations tasked with the dissemination of SRHR, GBV information and the risk mitigation techniques against STIs and unwanted Pregnancy to their peers.

Additionally, in order to enhance GBV reporting, the project built the capacity of GBV Responders in the state; facilitated the formation of SGBV Community committees across the project locations; and provided project feedback to the MOH and MOHSSD for collaboration and sustainability.

Sensitization of women in Maraban Rido, Chikun LGA

Community engagement with young women and girls in Abakwa, Kaduna North LGA

Distribution of dignity kits to adolescent girls and young women

## SUCCESS STORY

A 20 years Positive AGYW (FCT - Abuja, Nigeria)

*She provides for herself, and her siblings. As a result of the lockdown, she lost her means of livelihood - a job, that sustains her family. She was traumatized by the lack of funds and starvation she and her siblings had to go through.*

*As a beneficiary of the social aid support, she received funds for business support, which has made it possible to start up a business and provide sustenance for herself and her siblings.*

*"The social aid impacted me positively because I am able to start up a mini business that will support me and provide monthly funds for upkeep."*

## COVID-19 RESPONSE MECHANISM

In recognition of the fact that the emergence of COVID-19 significantly threatens the progress being made in the response to HIV, TB, and Malaria particularly in regions such as Africa, South Asia, and Latin America, the Global Fund set up the COVID 19 Response Mechanism (C19 RM 1.0) in April 2020 to mitigate the impact of COVID19 on programs to fight HIV, TB, and malaria, and initiate urgent improvements in health and community systems.

As part of the 2<sup>nd</sup> phase of the COVID-19 Response Mechanism (C19 RM 2.0) initiative issued in April 2021, Global Fund is providing additional funds to countries to mitigate the impact of COVID19 on existing HIV, TB, and Malaria programmes.

Based on the experiences from the C19RM 1.0, the meaningful engagement of civil society and communities in the C19RM funding request was also prioritized and the communities and CSO groups were encouraged to meaningfully engage in the funding request processes including but not limited to country dialogues and the fund request writing process.

## Technical support from the Global Fund

As part of efforts to support the process of dialogue among affected communities, the Global Fund through its Communities Rights and Gender Strategic Initiative Department offered small grants to CSOs, groups that will enable them to:

- Conduct situation and needs assessments to generate strategic information for better decision making to inform C19RM funding request Engagement in C19RM country dialogue processes
- Organize virtual or face-to-face community consultations to inform priorities for the C19RM Funding request.

ANAYD Nigeria received technical assistance from the Global Fund to support the COVID-19 Response Mechanism. Technical Assistance was provided to:

- A. Promote knowledge on COVID-19 response mechanism,
- B. Define priorities for adolescents and young people in their diversities in the C19RM process and
- C. Support AYPs meaningful involvement in priority setting and ensure priorities identified are mainstreamed into Nigeria COVID-19 Response Mechanism Grant Application

A total of 69 young people in their diversities and 26 stakeholders (totaling 95 persons) participated in the Consultations. These consultations focused on identifying priorities for the diverse AYP groups as it relates to the COVID-19 pandemic.

Key findings from the consultations which held in 3 states - Lagos, Anambra and Rivers states of Nigeria showed the following were the major challenges faced by young persons in their diversities:

- Misinformation/misinformation and lack of timely verifiable information about COVID-19
- Inability to access diagnostic, prevention, and treatment services
- Unemployment and loss of livelihoods / limited incoming generating opportunities due to COVID 19
- Human Rights Violations, Gender-Based Violence, and IPV

As a result of the challenges identified, the following emerged as priorities for AYPs as it relates to the COVID-19 Response Mechanism:

- Strengthening and supporting AYPs engagement in prevention and Service delivery
- Expanding/ adapting Community-led and client-centred service delivery models
- Support for Socio-economic empowerment, livelihood, and mental health
- Address Human Rights Violations, Gender-Based Violence, and IPV

To tackle the challenges identified, participants proposed provision of PPEs, increased funding, sensitization/training of health/law enforcement personnel, scale-up/integration of Home delivery of nutritional support, face-to face/virtual outreaches/sensitizations, promotion of harm reduction, and data support for AYP networks to host regular social media information/education sessions, etc as response strategies.

As Nigeria prepared her grant request for the COVID-19 Response Mechanism, young people partook in the process, to share their priorities which were mainstreamed in the country's grant request. This was a major step on to increasing AYP inclusion in national programming.

Consultation with AYPs in their diversities

## Consultation with YPWIDS

Findings show that the COVID-19 pandemic impacted young key population more. In a bid to capture the priorities of key population group as Nigeria applied for the COVID-19 Response Mechanism grant, ANAYD received support from Youth Rise to consult Young Persons Injecting Drugs (YPWIDs) in their diversities. The consultation involved a total of 20 (13 Male, 7 Female) YPWIDs (in their diversities) from across Nigeria.

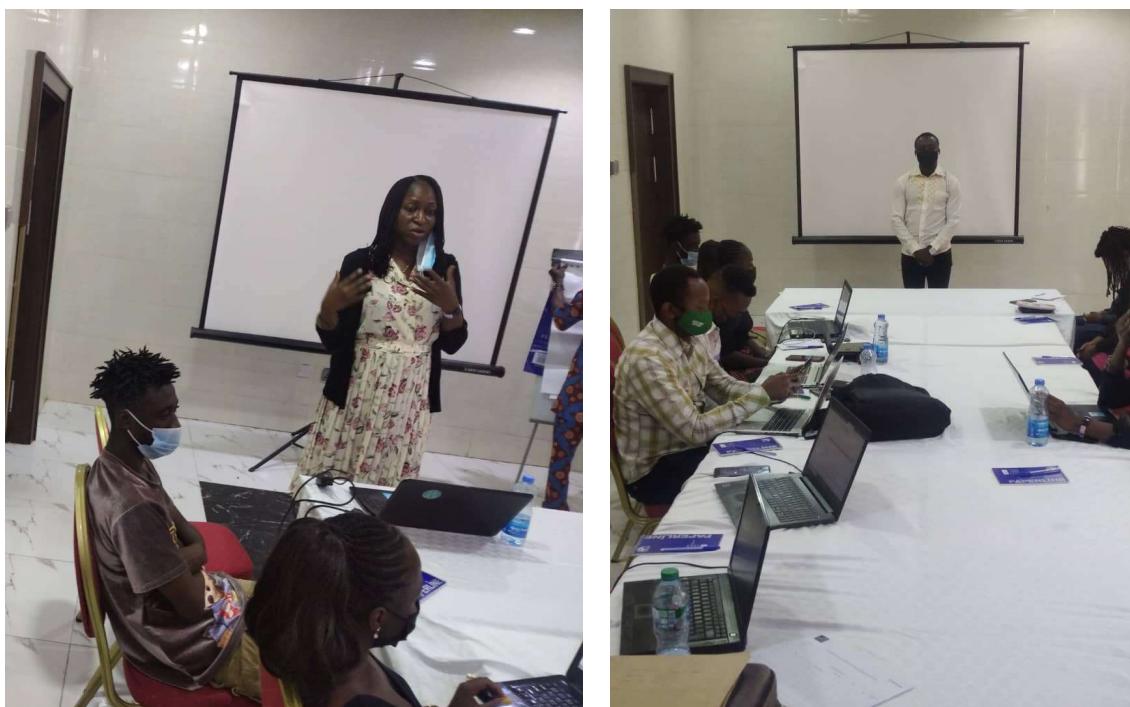

The priorities resulting from the consultation showed that for this group the reality is a little different and probably more difficult than most. The major challenges were:

- Lack of access to Covid19 diagnosis services
- Increased police harassment
- Stigma and discrimination
- Loss of jobs and livelihood
- Increase in deaths from overdose
- Displacement

As part of proposed solutions, responses showed that YPWIDs will appreciate:

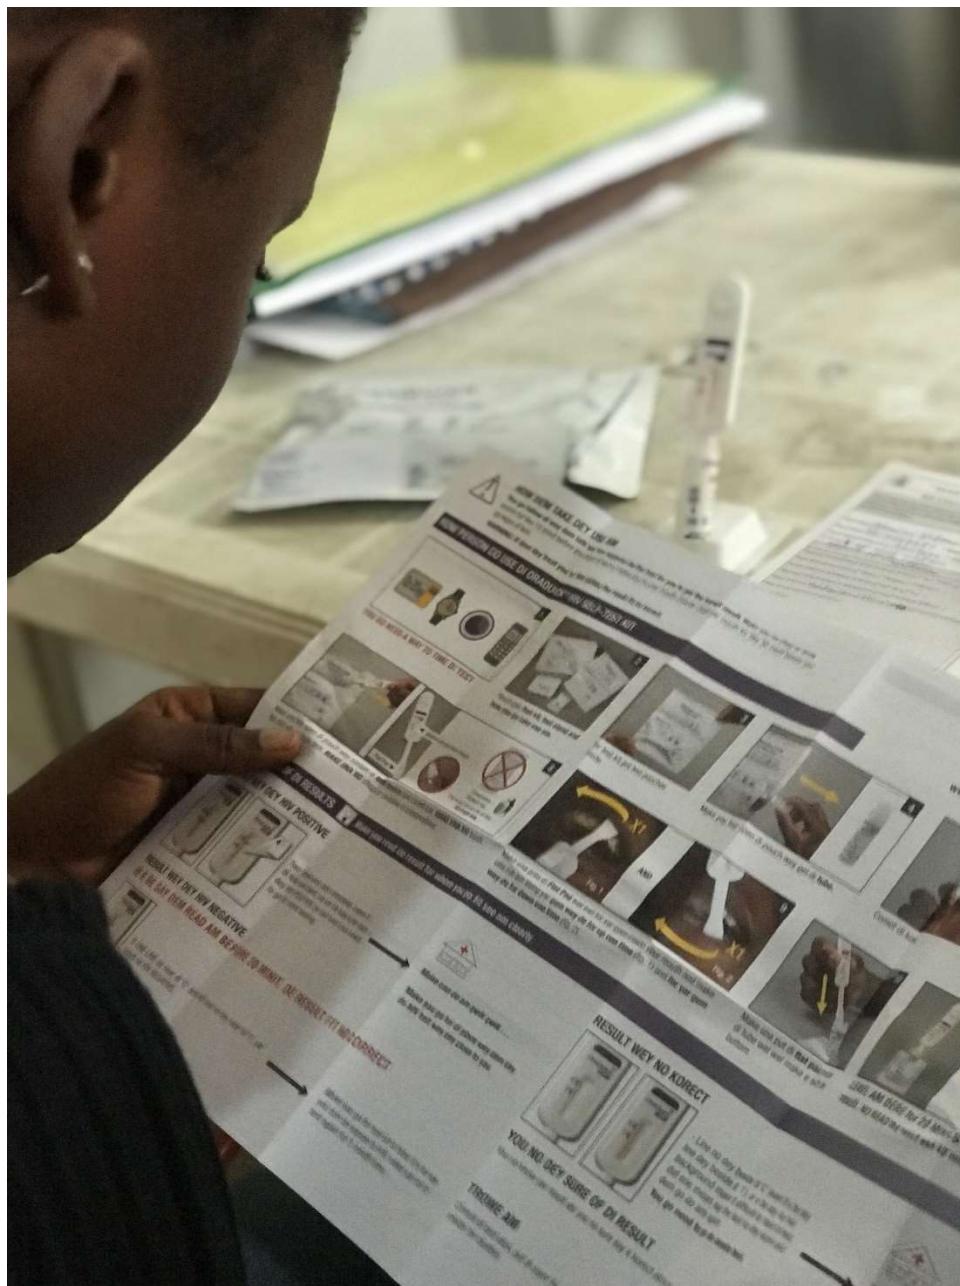

- Increased focus on female YPWIDs and their children
- Advocacy to National Drug Law Enforcement Agency (NDLEA) and the Nigerian Police
- Peer-to-peer led interventions; skill acquisition and IGA support
- Integrated programming (providing malaria treatment services to children of PWIDs, antenatal care for female PWIDS).

During the grant writing process, a YPWID partook in the Country Coordinating Mechanism (CCM) meeting and shared the identified priorities which were inputted in the grant request.

Consultation with YPWIDS in their diversities

## HIV SELF-TESTING AFRICA (STAR III) INITIATIVE

HIV Self-Testing intervention has become the promising approach to reach the underserved and hard-to-reach populations especially for the Adolescents and Young People (AYP) in their diversities towards fast-tracking the 95-95-95 cascade target by 2030.

In order to reach this ambitious and achievable targets, ANAYD received funding from the John Hopkins University Affiliate (Jhpiego) to implement the HIV Self-testing Africa (STAR) Initiative in Lagos, Nigeria. The Goal of STAR III project is “to facilitate rapid HIV Self-Testing (HIVST) scale-up in Nigeria with the aim of increasing knowledge of HIV status and uptake of HIV care and treatment and ultimately reducing HIV-related mortality and morbidity”.

Targeting Adolescents and Young People (AYP) in their diversities, ANAYD started implementation in November 2021, and will conclude in January 2022. The project will distribute 30,000 HIV Self-testing Kits (HIVSTK) among priority groups of AYP aged 15-24 years across 5 LGAs of coverage in Lagos State which include: Ajeromi-Ifelodun, Amuwo Odofin, Etiosa, Lagos Mainland and Ojo.

As at the end of 2021, the project had reached over 8,000 AYPs with HIVST kits, including counselling and linkage services. The project leverages on demand creators, youth-friendly centres and activities, including social media campaigns, radio and TV programmes to drive demand for the HIVST kits in Lagos state, Nigeria.

**REPORT OF THE AUDITORS ON  
 AFRICAN NETWORK OF ADOLESCENTS AND YOUNG PERSONS  
 DEVELOPMENT**

We have audited the financial statements of the above organization as at 31 December 2021 set out on pages 7 to 12 which have been prepared on the basis of the accounting policies on page 6.

**Respective responsibilities of Trustees and Auditors:**

The Trustees are responsible for the preparation of the accounts and financial statements. It is our responsibility to form an independent opinion, based on our audit, on those statements and to report our opinion thereon

**Basis of Opinion:**

We conducted our audit in accordance with generally accepted auditing standards. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the Director in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Projects' circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial statements. The financial statements are in agreement with the books of account which have been properly kept and we obtained the information and explanations we required. We have examined the books at the Kaduna office and project office and have received proper returns adequate for our audit, from projects not visited and all disbursements to projects have been made with NFI control procedures.

**Opinion**

In our opinion, the financial statement give a true and fair view of the state of affairs of the Organization as at 31<sup>st</sup> December 2021 and of the surplus of Income over Expenditure and cash flow for the year ended on that date, and have been properly prepared in accordance with provisions of Companies and Allied Matters Act, 1990 and the statements of accounting standards issued by International Financial Reporting Standard.

**STATEMENT OF ACCOUNTING POLICIES**

The following are the significant accounting policies adopted by the Organization in the preparation of its financial statements.

**1 Basis of Accounting:**

The accounts are prepared under the historical cost convention.

**2 Fixed Assets:**

Fixed assets are stated at cost less accumulated depreciation.

**3 Depreciation:**

Depreciation on fixed assets is calculated on a straight-line basis to write off the cost of the assets over their useful lives at the following annual rates

Motor vehicles	25%
Office furniture, fixture and fittings	15%
Computer equipment	15%
Office equipment	15%

**4 Foreign currencies:**

Transactions in foreign currencies are translated to the naira at the rate ruling at the date of transactions. Foreign currency balances are converted to the Naira at the rates of exchange ruling at the balance sheet dates. All differences arising from conversion of balance in foreign currencies to Naira (if any) are taken to the Statement of income and expenditure.

**5 Income:**

Income represents the grants and donations received from **DONORS** and **TRUSTEES** credited when received.

**AFRICAN NETWORK OF ADOLESCENTS AND YOUNG PERSONS  
DEVELOPMENT**

**STATEMENT OF INCOME AND EXPENDITURE  
FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER 2021**
